

Cumulative Index 1991

Volume 17

<i>February</i>	AIDS AND RHEUMATIC DISEASE , pages 1-195
<i>May</i>	NUTRITION AND RHEUMATIC DISEASES , pages 197-456
<i>August</i>	IMAGING OF RHEUMATIC DISEASES , pages 457-823
<i>November</i>	PEDIATRIC RHEUMATOLOGY , pages 825-1038

Note: Page numbers of issues and articles are in **boldface** type

- Abscess, magnetic resonance imaging of,
epidural, 775, 778, 784, 787
in foot, 531
paraspinal, 784, 787, 790
muscle (pyomyositis), in HIV infection,
152-153
- Acetaminophen, in juvenile rheumatoid
arthritis, 992
- Achilles tendon, magnetic resonance
imaging of, 633-634
- Acquired immunodeficiency syndrome. *See*
also Human immunodeficiency virus
infection.
manifestations of, in immunosuppressive
therapy, 39
prognosis vs. HLA-B35 in, 110
Reiter's syndrome in, 33-34
subacute oligoarthritis in, 49
symptom expression in, mechanism of,
158
- Activities of daily living, therapy for, 1012
- Acute-phase reactants, dietary fish oil effects
on, 239
fasting effects on, 354
- Acyclovir, in HIV infection, 144
- Adaptive equipment, for activities of daily
living, 1012
- Adjuvant arthritis, food allergy in, 251-257
- AIDS. *See* **Acquired immunodeficiency**
syndrome; Human immunodeficiency
virus infection.
- "AIDS foot," in spondyloarthropathy, with
HIV infection, 46
- AIDS-related complex, arthritis in, 33
- Alfalfa seeds/sprouts, in SLE pathogenesis,
324-330
- Allergic granulomatosis, HIV infection with,
133
- Allergy, food, 243-249
antigen absorption in, 292-294
arthritis in, animal model for, 251-257
classification of, 244
definition of, 274
diagnosis of, 244-245, 344-346
false, definition of, 274
fasting and, 366-367
in inflammatory arthritis, 264-266
in juvenile rheumatoid arthritis, 406
in palindromic rheumatism, 264
in rheumatoid arthritis, 264-266
in SLE, 264
in vasculitis, 266
management of, 247-248
mechanisms of, 243-244
milk. *See* under *Milk*.
pathogenesis of, 243-244
pseudo. *See* **Pseudo-food allergy**.
screening tests for, 245-247
verification testing in, 247
- Alpha linolenic acid, metabolism of, 237,
416
- Ambulation, physical therapy for, in
pediatric disease, 1006, 1012-1013
- American College of Rheumatology, position
statement on diet and arthritis, 443-444
- Amino acids, deficiencies of, autoimmune
disease and, 224-225

- Amino acids (*Continued*)
distribution of, in fasting, 352-353
in SLE pathogenesis, 323-332
Amyloids, dietary fish oil effects on, 239
Anaphylaxis, 244
Anemia, autoimmune hemolytic, alfalfa seeds and, 325, 327, 329
in HIV infection, 164
in juvenile rheumatoid arthritis, 404-405
in SLE, 923-924
Aneurysms, coronary artery, in Kawasaki disease, 910-912
Angiitis, lymphocytic, HIV infection with, 136
of central nervous system, HIV infection with, 138-140
Angiocentric immunoproliferative lesions, HIV infection with, 135-138, 142
Animal models, for HIV infection, 5-23, 36-37
Ankle. See also *Foot*.
computed tomography of, 552-553
juvenile rheumatoid arthritis of, physical therapy for, 1007-1008
Ankylosing spondylitis, absence of, in HIV infection, 47
imaging of, 813-816
vs. Reiter's syndrome, 61
Anorexia, in juvenile rheumatoid arthritis, 404
Anti-CD4 antibodies, in juvenile rheumatoid arthritis, 903
Anti-CD5 antibodies, in juvenile rheumatoid arthritis, 903
Anti-DNA antibodies, in glomerulonephritis, 215, 219
Anti-erythrocyte antibodies, in HIV infection, 164
Antibodies. See also *Immunoglobulin(s)*.
anti-idiotypic, in IgA deficiency, 298-299
formation of, dietary omega-3 fatty acids effects on, 219-220
in HIV infection, autoimmunity and, 162-169
to bacterial antigens, gastrointestinal, 310
to food antigens, in IgA deficiency, 298-299
in infants, 290-292
Anticardiolipin antibodies, in HIV infection, 50, 166-167
Anticollagen antibodies, in HIV infection, 167
Antidepressants, tricyclic, in juvenile rheumatoid arthritis, 992
Antigens, bacterial, arthritis and, 309-321
IgA and, 309-310
in inflammatory bowel disease, 312-313
in intestinal bypass syndrome, 313-314, 366
in pseudomembranous colitis, 315-316
in Whipple's disease, 314
pathogenetic principles in, 316
postdysenteric reactive, 311-312
spondyloarthropathies, 315
therapeutic considerations in, 316
vs. food antigens, 310
deposition of, in arthritis, 861
endogenous, mast cells response to, 338
food. See *Food antigens*.
Antimalarial drugs, in juvenile rheumatoid arthritis, 874, 878-879, 897
Antineutrophil cytoplasmic antibodies, in HIV infection, 165
Antinuclear antibodies, in dermatomyositis, 932-933
in HIV infection, 163
in SLE, kidney dysfunction risk and, 923
Arachidonic acid, chemical structure of, 213
metabolism of, 373-378
autoimmune disease and, 227
omega-3 fatty acids and, 378-385
plant seed oils and, 416
synthesis of, 227
in fasting, 357
Arthralgia, in HIV infection, 83
Arthritis. See also specific type.
adjuvant, food allergy in, 251-257
collagen-induced, fish oil diet effects on, 215
dry, 528
experimental, fish oil fatty acids and, 235-242
food and, 259-272, 314-315
gastrointestinal tract and, 263-264
historical perspective on, 259-262
gastrointestinal tract antigens and, 309-321
in caprine arthritis-encephalitis virus infection, 11-12
pathogenesis of, 15-19, 36-37
in eosinophilia-myalgia syndrome, L-tryptophan-induced, 430
in HIV infection. See under *Human immunodeficiency virus infection*.
in inflammatory bowel disease, 312-313
in intestinal bypass syndrome, 313-314, 366
in pseudomembranous colitis, 315-316
in Whipple's disease, 314
inflammatory. See also *Rheumatoid arthritis*.
of elbow, magnetic resonance imaging of, 711
mast cells in, 333-342
parasitic, 315
postdysenteric reactive, 311-312
rheumatoid. See *Rheumatoid arthritis*.
septic. See *Septic arthritis*.

- tuberculous, arthrography of, 523-524, 528
- unproved remedies for, 197-202, 273-285, 346-347, 406-407
- Arthrography, aspiration with, 506, 508
- in rheumatic disease, 505-542
- cysts, 534, 537-538
- iliopsoas bursa distension, 533-534
- indications for, 531-538
- mechanically unstable, 532-533
- monoarticular abnormalities, 516-530
- pigmented villonodular synovitis, 516, 519
- rheumatoid arthritis, 531
- septic arthritis, 505-515
- subacromial-subdeltoid bursa distension, 534, 537
- synovial chondromatosis, 523
- tuberculous arthritis, 523-524, 528
- with soft-tissue mass, 533-534, 537-538
- of knee, 531
- of naviculolunate dissociation, 532
- of popliteal cyst, 803
- of rotator cuff, 533, 795-796
- of shoulder, 795-796
- of wrist, 531
- in instability, 532-533
- vs. magnetic resonance imaging, 617-618
- Arthropathy, hemophilic, magnetic resonance imaging of, 662-663
- Arthroplasty, in juvenile rheumatoid arthritis, 971-983
- indications for, 973-974
- of hip, 973-980
- of knee, 973-974, 980-982
- preoperative planning in, 971-972
- resection, 979-980
- revisional, 978
- Ascorbic acid (vitamin C), deficiency of, autoimmune disease and, 228
- immune responses to, 206-207
- in rheumatoid arthritis, 266
- Aspiration, of joint, arthrography in, 506, 508
- Aspirin, in Kawasaki disease, 912-914
- Atlantoaxial joint disorders, in rheumatoid arthritis, 757-760
- precautions in, 1003
- Auranofin, in juvenile rheumatoid arthritis, 876-877
- Aurothioglucose, in juvenile rheumatoid arthritis, 875
- Aurothiomalate, in juvenile rheumatoid arthritis, 875
- Autoantibodies, induction of, in HIV infection, 157-176
- Autoimmune disease. See also specific disease.
- nutritional modulation of, 223-234
- amino acids, 224-225
- calories, 225-226
- lipids, 226-228. See also *Fatty acids*.
- minerals, 229-231. See also specific mineral.
- omega-3 fatty acids in, 213-222
- protein, 224-225
- vitamins, 228-229
- Autoimmune hemolytic anemia, alfalfa seeds and, 325, 327, 329
- Autoimmunity, in juvenile rheumatoid arthritis, 844
- Autologous mixed lymphocyte reaction, in juvenile rheumatoid arthritis, 845
- Avascular necrosis, of bone, in HIV infection, 49-50
- of foot, magnetic resonance imaging of, 632
- of hip (femoral head), computed tomography of, 549
- imaging algorithm for, 799-802
- magnetic resonance imaging of, 671-675
- of knee, magnetic resonance imaging of, 651
- of wrist, magnetic resonance imaging of, 727
- Azathioprine, in arthritis, with HIV infection, 39
- in dermatomyositis, 939
- in juvenile rheumatoid arthritis, 897, 903
- AZT (azidothymidine). See *Zidovudine*.
- Azulfidine, in arthritis, with HIV infection, 55
- B lymphocytes, in HIV infection, 158-162
- in juvenile rheumatoid arthritis, 846-847
- Bacteria, antigens to, arthritis and, 309-321
- in gastrointestinal tract, dietary therapy effects on, 281-282
- fasting effects on, 368
- immune response to, arthritis in, 309-316
- Bacteriophage OX 174, in juvenile rheumatoid arthritis, 845
- Baker's cyst. See *Popliteal cyst*.
- Bankart fractures, magnetic resonance imaging of, 701
- Behavioral management, of pain, in juvenile rheumatoid arthritis, 992-993
- in reflex sympathetic dystrophy, 994-995
- Biceps tendon, ultrasonography of, 496
- Biopsy, of salivary glands, in Sjögren's syndrome, 101
- Biotin deficiency, immune responses to, 206
- Bipolar hemiarthroplasty, in juvenile rheumatoid arthritis, 978-979

- Bluhm scoring method, for rheumatoid arthritis, 466
- Body composition, in juvenile rheumatoid arthritis, 408
- Body outline, in Pediatric Pain Questionnaire, 990
- Bone, avascular necrosis of, in HIV infection, 49-50
infection of. See *Osteomyelitis*.
of knee, magnetic resonance imaging of, 647, 650-651
ultrasonography of, 487
- Bone grafting, in facial scleroderma reconstruction, 962-963
- Bone marrow transplantation, food antigen absorption in, 301-303
- Borage seed oil, antiinflammatory effects of, 416, 418
- Botanical lipids, as immune response modulators, 415-425
- Bradykinin, in pain mechanism, 992
- Breathing exercises, in pain management, 993
- Bursitis, in HIV infection, 83, 150-151
- CAEV (caprine arthritis-encephalitis virus) infection, HIV infection and, 5-23, 36-37
- Calcinosis, in dermatomyositis, 935-936, 939-940
- Caloric restriction. See also *Fasting*,
in autoimmune disease, 225-226
in rheumatoid arthritis, 358
- Campylobacter* infection, in reactive arthritis, 312-313
- Campylobacter jejuni* infection, in arthritis, 33
- Canavanine, immunomodulatory role of, 330-331
in SLE pathogenesis, 325-330
- Candidiasis, gastrointestinal, dietary therapy effects on, 282
in arthritis pathogenesis, 33
- Caprine arthritis-encephalitis virus infection, HIV infection and, 5-23, 36-37
- Cardiovascular effects, of Kawasaki disease, 910-912
of L-tryptophan-induced eosinophilia-myalgia syndrome, 430
- Carotenoid deficiency, immune responses to, 204-206
- Carpal tunnel syndrome, magnetic resonance imaging of, 722, 727
- Cartilage, ultrasonography of, 487
- Casting, in juvenile rheumatoid arthritis, 1004-1006
- CD4+ cells, in arthritis, 37-38
in diffuse infiltrative lymphocytosis, 106-108
in HIV infection, 69, 158-159, 161, 165
CD8+ cells, in arthritis, 37-38
in diffuse infiltrative lymphocytosis syndrome, 102, 105-108
in HIV infection, 69
in Reiter's syndrome, with HIV infection, 53-54
CD29+ cells, in diffuse infiltrative lymphocytosis, 107-108
CD45R+ cells, in diffuse infiltrative lymphocytosis, 107
- Celiac disease, arthritis in, 315
fasting and, 367-368
pathogenesis of, 280
- Cell-mediated allergic reaction, 244
- Cellular immunity, in juvenile rheumatoid arthritis, 845-847
- Cellulitis, magnetic resonance imaging of, in foot, 631
with osteomyelitis, imaging of, 567
- Central nervous system, primary angiitis of, HIV infection with, 138-140
- Cervical spine, degenerative disorders of, 741-755
anatomic considerations in, 741-743
apophyseal joint involvement in, 747
clinical aspects of, 745, 747
computed tomography of, 749-750
diarthroidal joint involvement in, 744-745
discovertebral joint involvement in, 743-744
entheses, 745
facet syndrome, 747
intervertebral disk involvement in, 743-745, 747
ligamentous ossification, 747
magnetic resonance imaging of, 750-753
osteophytes in, 747
pathophysiology of, 743-745
radiculopathy in, 747
radiography of, 749
spinal canal stenosis, 747
juvenile rheumatoid arthritis of, physical therapy for, 1002-1003
rheumatoid arthritis of, 757-772
atlantoaxial subluxation in, 757-760
computed tomography of, 763-765
magnetic resonance imaging of, 765-769
management of, 769
myelography of, 764-765
myelopathy in, 767-769
odontoid erosions in, 762-763
pannus in, 763, 769
pathophysiology of, 757-763
progression of, 763

- radiography of, 763
 - subaxial subluxation in, 760, 762
- Chlamydia infection, in arthritis
 - pathogenesis, 33, 65
- Chlorambucil, in juvenile rheumatoid arthritis, 902-903
 - in vasculitis, 144
- Chloroquine, in juvenile rheumatoid arthritis, 878-879, 893
- Chondromalacia patellae, computed tomography of, 552
- Chondromatosis, synovial, arthrography of, 523
- Churg-Strauss syndrome, HIV infection with, 133
- Clostridium difficile* infection, arthritis in, 861
- Clostridium* infection, gastrointestinal, arthritis with, 315-317, 366
 - dietary therapy effects on, 282
- Coat protein (gp120), in interleukin expression, 9-10
- Cobblestoned synovium, 519
- Codeine, in juvenile rheumatoid arthritis, 992
- Coeliac disease. See *Celiac disease*.
- Colchicine, in calcinosis, 939
- Cold, in physical therapy, 1010
- Colitis, arthritis with, pseudomembranous, 315-316
 - ulcerative, 312-313
- Collagen, autoantibodies against, in HIV infection, 167
- Collagen-induced arthritis, fish oil diet effects on, 215
- Collateral ligament injuries, magnetic resonance imaging of, 645, 647
- Common variable immunodeficiency, food antigen handling in, 299-301
- Compartment syndrome, of foot, magnetic resonance imaging of, 631
- Complement levels, fasting effects on, 354
- Computed tomography, in ankylosing spondylitis, 814
 - in arthritis, 505-542
 - of ankle, 552-553
 - of cervical spine, 763-765
 - of foot, 553-554
 - of hip, 549, 551
 - of knee, 551-552
 - of sacroiliac joints, 548-549
 - of shoulder, 547-548
 - of sternoclavicular joint, 544-545, 547 vs. plain radiography, 543-544
 - in avascular necrosis, of hip, 800
 - in degenerative disorders, of spine, 749-750
 - of sacroiliac joints, 548-549, 810
 - vs. magnetic resonance imaging, 617
- Concavalin A, in juvenile rheumatoid arthritis, 845
- Conditioning exercises, in juvenile rheumatoid arthritis, 1008-1009
- Congenital immunodeficiency, food antigen absorption in, 294-301
- Connective tissue diseases. See also specific disease.
 - HIV infection with, in Zimbabwe, 89-97
- Contractures, in juvenile rheumatoid arthritis, hip, 1005-1006
 - knee, 1007
- Copper, deficiency of, immune responses to, 210
- Copper bracelets, in arthritis, 266
- Coronary artery aneurysms, in Kawasaki disease, 910-912
- Corticosteroids, in arthritis, with HIV infection, 54, 85
 - in dermatomyositis, 938-939
 - in diffuse infiltrative lymphocytosis, 111-112
 - in juvenile rheumatoid arthritis, nutritional effects of, 405
 - in Kawasaki disease, 913
 - in psoriasis, with HIV infection, 66
 - in psoriatic arthritis, with HIV infection, 68
 - in Reiter's syndrome, with HIV infection, 68
 - in L-tryptophan-induced eosinophilia-myalgia syndrome, 433
- Coxsackievirus, in dermatomyositis etiology, 932
- Cranial neuropathy, in diffuse infiltrative lymphocytosis, 105
- Crohn's disease, arthritis with, 312-313
- Cruciate ligament injuries, of knee,
 - magnetic resonance imaging of, 645
- Cryoglobulinemia, HIV infection with, 186-187
- Cryptococcus neoformans* infection, in septic arthritis, 151
- Cunninghamella bertholletiae* infection, in septic arthritis, 152
- Cyclooxygenase pathway, in fatty acid metabolism, 373-376, 380
- Cyclophosphamide, in dermatomyositis, 939
 - in juvenile rheumatoid arthritis, 897, 903
 - in SLE, 924-927
- Cyclosporine, in arthritis, with HIV infection, 55-56
 - in dermatomyositis, 938
 - in juvenile rheumatoid arthritis, 885-886, 903
 - in psoriasis, 71-72
 - in SLE, 927
- Cyst(s), Baker's. See *Popliteal cyst*. ganglion. See *Ganglion cyst*. of knee. See also *Popliteal cyst*.

Cyst(s) (Continued)

- magnetic resonance imaging of, 652, 655
- popliteal. *See Popliteal cyst.*
- ultrasonography of, 487-488
- Cytokines, in juvenile rheumatoid arthritis, 847-851
 - in Kawasaki disease, 910
 - in synovial fluid, in retrovirus infection, 18-19
 - interactions with eicosanoids, 235-236
- Cytotoxic drugs, in dermatomyositis, 938-939
 - in juvenile rheumatoid arthritis, 893
- Dactylitis, in spondyloarthropathy, with HIV infection, 46
- Deep vein thrombosis, in rheumatoid arthritis, 805-808
